

User Manual

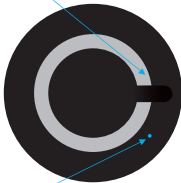

**Netstar Smart IR Blaster
Universal Remote**

Network Configuration Indicator

Power Outlet

Reset Button

Installation Instructions

1. Connect the IR Universal Remote Device with the USB Power cable and keep the power on.
2. Download Netstar App in your Smartphone and complete the one-time registration.
3. Make sure Mobile Bluetooth is turned on & phone is connected to WiFi network (Please set 2.4 GHz frequency in the Router.)

4. Press Reset Button on the IR Universal Remote Device and check if Blue LED light is blinking (= device is in configuration mode)
5. Open the Netstar App, select “+” button on the top Right corner to Add device.
6. You can either use Auto Scan option to select the device automatically OR to Add the device manually, Go to Others Section, and select “Universal Remote Control”.
7. App will prompt for WiFi ID & Password, please enter the same.

8. Please wait till the App completes configuration - within 20-180 seconds, Blue LED should stop blinking and will remain ON steadily - means the linkage is completed.
9. IR Blaster should now appear on your Netstar App Homepage. You can rename the IR Universal Remote as per your wish.
10. Now click on the IR Universal Remote and then click on "Add Remote Control".
11. Select the Device type (AC, TV etc.) and then select the Brand / Make of the device.

12. Choose the Remote type which works the best and save it.
13. If the particular Make of your device is not available in the database, then click on DIY section, and complete the Study (Learning) step to complete the linkage.

Alexa / Google / Siri Setup :

1. Download & Register Alexa / Google / Siri App in your Smartphone.
2. Search for “Netstar Home” in the Skills / Devices and select the same.
3. It will search & automatically link all Netstar compliant devices in the WiFi network.
4. This completes the Alexa / Google / Siri linkage. If any device was not discovered, please check internet connection and repeat the process above.
